Aims of the course:

Develop a whole team (school/department) approach to global learning with increased understanding and expertise to critique practise and educational materials.

Expected outcomes of the course:

- Increased confidence and understanding to promote informed active global citizenship
- Increased ability to critique the knowledge base and key concepts associated with education for a just and sustainable world
- Identification of a range of different perspectives and question the assumptions behind them
- Enhanced understanding of the approaches to learning that promote critical literacy
- Practical ideas for incorporating global learning across the curriculum
- To be able to justify incorporating global learning in the curriculum and include activities to measure changes in attitudes of their pupils in relation to certain global issues
- Individual teachers to gain GTA (accredited through Liverpool Hope University)

Embedding global learning in your teaching:

- Increased confidence in teaching complex issues
- Fun and engaging activities for use in the classroom
- Activities for measuring pupils' attitudinal change
- Achieve Global Teacher Award for each teacher (travels with teacher rather than a school award)
- Shared discussion opportunities with colleagues
- Develop curriculum planning to incorporate global learning
- Informed school policy review ideas
